The buyer is a contracting entity

2 Procedure

2.1 Procedure

Title: Territorial Civil Works (TCW) Studies for the 2.13-ELEG-S-M-25-GREGY-STUDIES Project

Description: Open international competitive tender procedure following an Expression of Interest phase. The Contracting Entity invites interested and suitably qualified onshore geotechnical and civil consultancy firms, joint ventures, association of companies and consortia to submit an Expression of Interest ("Eol") for participation in a subsequent competitive tender procedure for the provision of Territorial Civil Works ("TCW") Studies for the 2.13-ELEG-S-M-25-GREGY-STUDIES Project. The GREGY Interconnector is a project of Mutual Interest (PMI) and a strategic electricity interconnection project involving high-voltage transmission infrastructure between Egypt and Greece, including submarine and onshore cable systems and associated facilities. The associated project, "2.13-ELEG-S-M-25-GREGY-STUDIES", has been successfully awarded under the Connecting Europe Facility (Grant Agreement: 101290455). Its primary objective is to carry out the necessary technical and environmental studies required to advance the project. This Notice constitutes an invitation for interested parties to express their interest in participating in the forthcoming tender procedure. The Expression of Interest (Eol) phase is intended to: • identify interested and capable economic operators; • verify their suitability to participate in the tender process; • enable the Contracting Entity to provide confidential tender documentation. Interested parties shall submit Eol including: • Company name and details; • Contact information; • Brief company profile; • Confirmation of relevant experience in territorial civil works studies for major infrastructure, energy and/or transmission projects; • Confirmation of willingness to participate in the tender procedure. Technical and financial submissions are not required at this stage. - Deadline for submission of Eol: 21.08.2026 - Expressions of Interest shall be submitted in English, by email to: info@gregy-interconnector.gr. Due to the confidential nature of certain project information, interested parties who submit an Eol will be required to execute a Non-Disclosure Agreement ("NDA"). The NDA shall regulate access to confidential information, including but not limited to: • project documentation; • technical studies; • engineering information; • environmental baseline data; • commercial information; • tender documentation. Only parties who have executed the NDA will receive the complete tender documents. Following execution of the NDA, eligible interested parties will receive: • Instructions to bidders; • Terms of reference; • Technical specifications; • Draft contract; • Evaluation methodology; • Submission requirements; • Other relevant tender documentation. In their bids, interested parties should demonstrate, at minimum: • Relevant experience in preparation of equivalent TCW studies; • Experience with large-scale energy, infrastructure and/or transmission projects; • Availability of appropriately qualified experts; • Capacity to perform the TCW studies within the required timeframe. Additional qualification requirements and evaluation criteria will be included in the tender documents. - Dispatch of NDA: The NDA will be sent to interested parties within three (3) business days from the submission of the Eol - Issue of tender documents: On 24.08.2026 to all interested parties who will have returned the duly executed NDA till that date. To all the rest, within three (3) business days from the return of the duly executed NDA. - Submission deadline for bids: 16.10.2026

Internal identifier: 05/TCW

2.1.1 Purpose

Main nature of the contract: Services

Main classification (cpv): 71311000 Civil engineering consultancy services

2.1.2 Place of performance

Country subdivision (NUTS): Ανατολική Αττική (EL305)

Country: Greece

Additional information: Egypt (part of the TCW shall be conducted in Egypt)

2.1.4 General information

Additional information: The procurement shall be conducted in accordance with principles of: • transparency; • equal treatment; • non-discrimination; • proportionality; • fair competition. Submission of an EoI does not constitute a tender submission and does not create any obligation on the part of the Contracting Entity. The Contracting Entity reserves the right to: • amend the procurement timetable; • request clarifications; • reject submissions that do not meet participation requirements; • cancel or discontinue the procedure. The submission of an EoI does not entitle the submitting party to receive tender documentation; this is subject to execution of the NDA.

Legal basis:

Other

The Contracting Entity is a private company and beneficiary of European Union funding under the Connecting Europe Facility Programme (CEF).

3 Part

3.1 Part: PAR-0001

Title: Territorial Civil Works (TCW) Studies for the 2.13-ELEG-S-M-25-GREGY-STUDIES

Description: Preparation and submission of applications to the relevant authorities to receive the authorisations (permits) for conducting onshore geological and geotechnical studies in both countries, and execution of these studies upon issuance of authorisations (permits) by the relevant authorities. They consist of a detailed mapping of the works area to determine the overall design of the onshore routes, the landing points, including the location of the converter stations, and the integration with the existing grid infrastructure. The access roads to the converters' stations and transportation plans (defining the routes for transporting major equipment to the final installation locations) will also be identified. Developing topographic maps and preparation of the preliminary onshore route engineering design. The main deliverable is the territorial civil works studies completed.
